Profile Summary

Frontend Developer with 3 years of experience delivering scalable, high-performance web applications using **React.js**, **Vue.js**, **Next.js**, and modern JavaScript (ES6+). Skilled in **state management**, **component reusability**, and **performance optimization**, consistently improving maintainability and speed by up to 40%. Adept at working in Agile environments, integrating REST APIs, and delivering clean, maintainable code.

Experience

May 2024 – Present

Software Engineer, *Stalwart Software Pvt Ltd*
- Led development of scalable web applications using React.js, Next.js, Material UI, and React Hook Form, improving form submission accuracy by 25%.
- Built complex data tables with Material React Table, streamlining workflows through advanced filtering, sorting, and inline editing.
- Integrated TanStack Query for optimized server-state management, reducing redundant API calls by 40%.
- Developed reusable UI libraries and hooks, improving development speed across multiple projects.
- Collaborated with backend teams to design REST API contracts and optimize data flow.
- Mentored junior developers and enforced coding standards through code reviews.

Jun 2023 – Apr 2024

Software Engineer, *Mantra Technologies Pvt Ltd*
- Designed and developed dynamic UIs using Vue.js and JavaScript (ES6+), ensuring responsive and user-friendly experiences.
- Migrated Vuex-based applications to Pinia, reducing boilerplate code and improving productivity by 20%.
- Built and optimized server-rendered apps with Next.js, improving SEO and load times.
- Styled UI components using Tailwind CSS, reducing CSS bloat and improving design consistency.
- Owned end-to-end feature delivery from design to deployment.

Nov 2022 – May 2023

Associate Engineer, *Float Technology Solutions Pvt Ltd*
- Developed responsive UIs using Vue.js, JavaScript (ES6+), HTML5, and CSS3.
- Assisted in state management using Vuex and routing with Vue Router.
- Implemented layouts and styling with Bootstrap and custom CSS.
- Integrated API calls to display dynamic content in Vue components.

Projects

May 2024 – Present

AppyBiz – ERP Platform, *Stalwart Software Pvt Ltd*
- Spearheaded development of a responsive ERP platform interface, streamlining inventory, sales, and order management for manufacturing clients.
- Delivered dynamic forms and inline-edit data tables, reducing task completion time by 30%.

Jun 2023 – Apr 2024

500APPS HRSPROUT, *Mantra Technologies Pvt Ltd*
- Built an attendance tracking system with approval workflows and detailed activity logs.
- Developed a leave management module with Access Control Lists (ACLs) for role-based request handling.

Nov 2022 – May 2023	**Float Care – Healthcare Workflow Platform**, *Float Technology Solutions Pvt Ltd*

- ○ Developed modules for staff management, scheduling, and credentialing to automate healthcare operations.
- ○ Implemented referral management workflows to ensure timely follow-up across departments.
